

Our Mission

Is to produce & serve using high technology to make high quality & reliable products & service for “packing your brand with our preform of life

Our Story

When we thought we would start our story in the industry in 2004 through “Arab PET”. We understand from the market that our story is not the only representative of us, but represents our customers (where we are responsible for packaging your brand). This was the beginning of business development and we created “Aqua Pura” in 2005. In 2017 we obtained PHG by combining AQUA PURA and ARAB PET together.

Our Goals

Our goal is to provide quality services for client-specific solutions within scope, budgets and schedules.
